

Bachelor of Science (Sexology)

Distance degree programs for Adults & Professionals.

Bachelor's Degree - Psychology

Sexology via distance learning

This Bachelor's Degree provides a comprehensive view of human sexuality. It covers, delicately and comprehensively, all relevant topics of sexology including aspects of sexual and therapeutic health: sexual communication, fantasy, masturbation, homosexuality, bisexuality, female and male sexuality, sexual enrichment, and pleasure. It explores a variety of sexual behavior; the treatment possibilities for sexual dysfunction; the need to protect ourselves from sexually transmitted diseases; how our sexual satisfaction can improve with age even as the body changes; and how can we help sexually harassed victims, etc.

Bachelor's Degree
