What people are saying

"I have saved hours of time by using these documents and the standard is very high. I love that I can customise them for different projects and most importantly they are of a standard expected by some of our larger clients." -

Mary Lane

"Brilliant! No time wasting very detailed and covered every aspect of my industry. Every one fears putting in the effort and still missing areas that require attention. This covered the lot. My time is better spent implementing safety or enjoying my weekend. If you want your staff safe like me, buy this document and spend time walking them through it. Keeps everyone safe and my obligation to safely culture is complete." -

Stephen Hewitson

"We were in the process of obtaining certification and I required a Quality Management System that involved various areas of paperwork. SafetyDocs had everything I needed to ensure compliance - it was like a one-stop shop." -

Graeme Rutley

"Easy to use. Even for a 57 year old. !! Value for money, compared to others. Makes me compliant now with insurance companies and builders we work for. Oh and thanks for the heads up with the COVID plan. It has meant we can keep working. Cheers." -

G Robinson

"Purchased the management plan and worked through the document and have found it to be very user friendly. The instructions given to simplify the set up are excellent. I would recommend any company to the SafetyDocs website." -

Tina Jenner

"The information in the products was very helpful and it saved a lot of time. The report was ready in 2 days. We were looking at 4 weeks or more before completion. When presented to the powers to be we got all the ticks in the right box." -

Notswing

"Purchased this SOP as an emergency as our new client was after something more than what our WHS manual provided it was exactly what they were after. We are very happy with SafetyDocs by SafetyCulture." -

Kristy
