BSBOPS201 Work effectively in business environments

Release: 1

BSBOPS201 Work effectively in business environments

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to work effectively in business environments. It includes identifying and working to organisational standards, managing workload and working as part of a team.

The unit applies to those who work in a broad range of settings. These individuals typically work under some supervision and guidance.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Business Operations

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

BSBOPS304 Deliver and monitor a service to customers

Release: 1

BSBOPS304 Deliver and monitor a service to customers

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to identify customer needs, deliver and monitor customer service and identify improvements in the provision of customer service.

The unit applies to those who apply a broad range of competencies in various work contexts. In this role, individuals often exercise discretion and judgement using appropriate knowledge of customer service. They provide technical advice and support to customers over short or long-term interactions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Business Competence – Business Operations

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify customer needs	1.1 Identify and clarify customer needs and expectations 1.2 Evaluate customer needs and determine priorities for service delivery according to organisational requirements 1.3 Inform customers about available choices for meeting their needs and assist selection of preferred options 1.4 Identify limitations in addressing customer needs and seek assistance from designated individuals, where required
2. Deliver a service to customers	2.1 Provide service to meet identified customer needs according to organisational and legislative requirements 2.2 Establish and maintain rapport with customers 2.3 Manage customer complaints according to organisational and

ELEMENT	PERFORMANCE CRITERIA
	legislative requirements 2.4 Provide assistance and respond to customers with specific needs according to organisational and legislative requirements 2.5 Identify and use available opportunities to promote and enhance services and products to customers
3. Evaluate customer service delivery	3.1 Review customer satisfaction with service delivery using verifiable evidence according to organisational and legislative requirements 3.2 Seek and respond to customer feedback according to organisational policies and procedures 3.3 Identify opportunities to enhance the quality of customer service 3.4 Document recommendations for customer service improvements 3.5 Submit recommendations to relevant personnel according to organisational policies and procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Description
Learning	<ul style="list-style-type: none"> Identifies and follows up on opportunities to improve work practices and outcomes
Oral communication	<ul style="list-style-type: none"> Provides information or advice using structure and language to suit the audience Asks questions and listens to gain information or confirm understanding
Reading	<ul style="list-style-type: none"> Evaluates textual information to determine customer service requirements Proofreads texts for clarity of meaning and accuracy of grammar and punctuation
Writing	<ul style="list-style-type: none"> Completes responses to customer complaints in required format Prepares reports using sequencing, format and words to communicate recommendations clearly and effectively
Planning and organising	<ul style="list-style-type: none"> Complies with organisational policies and procedures relevant to role Plans and implements systems to gather and organise information

Skill	Description
Problem-solving	<ul style="list-style-type: none"> • Uses problem solving skills to analyse and respond to customer complaints or enquiries

BSBWHS211 Contribute to the health and safety of self and others

Release: 1

BSBWHS211 Contribute to the health and safety of self and others

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

Application

This unit describes the skills and knowledge required to work in a manner that is healthy and safe in relation to self and others, and to assist in responding to incidents. It covers following work health and safety (WHS) policies, procedures, instructions and requirements; and participating in WHS consultative processes.

The unit applies to those who require a basic knowledge of WHS to carry out own work in a defined context, under direct supervision or with some individual responsibility, in a range of industry and workplace contexts.

NOTES

1. The terms ‘occupational health and safety’ (OHS) and ‘work health and safety’ (WHS) are equivalent, and generally either can be used in the workplace. In jurisdictions where *model WHS laws* have not been implemented, registered training organisations (RTOs) are advised to contextualise this unit of competency by referring to existing WHS legislative requirements.
2. The *model WHS laws* include the model WHS Act, model WHS Regulations and model WHS Codes of Practice. See Safe Work Australia for further information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

CPCCCM2012 Work safely at heights

Release: 1

CPCCCM2012 Work safely at heights

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCM2010B Work safely at heights.
Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the skills and knowledge required to work safely on construction sites where the worker has the potential to fall from one level to another.

This unit of competency does not cover the erection of scaffold or work platforms, but it does include identifying and reporting common faults with scaffold or work platform systems.

Work at heights is undertaken in a range of construction work, including new construction, renovation, refurbishment and maintenance.

This unit also applies to workers in other industries who need to control the two separate risks associated with people and objects falling from heights.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, legislative, regulatory or certification requirements apply to this unit of competency in some states and territories. For further information, check with the relevant regulatory authority.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

Unit Sector

Construction

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- 1 Identify task requirements.
 - 1.1 Read work order and associated drawings and consult with relevant persons to determine the proposed work-at-heights task, including where and how work is to be carried out, and the equipment or plant to be used.

Climb up to aircraft through the ladder
 - 1.2 Participate in the development of the safe work method statement (SWMS) for the specified task.

Ladder safety check
Section 5 Working at Height
<http://www.iqytechnicalcollege.com/UEENEEE101AWHS.pdf>
 - 1.3 Select appropriate work-at-heights control measures including required fall restraint devices and/or fall arrest devices in accordance with workplace and regulatory requirements.

Section 5 Working at Height
<http://www.iqytechnicalcollege.com/UEENEEE101AWHS.pdf>
 - 1.4 Determine location of anchor points for harness-based work to safely access required work area.

Safety practice in truck operation , use of safety belt,
 - 1.5 Review completed SWMS and clarify issues with relevant persons.

Safety rules

CPPCLO3035 Maintain cleaning storage areas

Release: 2

CPPCLO3035 Maintain cleaning storage areas

Modification History

Release	Comment
Release 1	Replaces superseded equivalent CPPCLO2035A Maintain cleaning storage areas. This version first released with CPP Property Services Training Package Version 4.
Release 2	Minor update to typo in the Knowledge Evidence, replace 'distilling' with 'diluting'. This version released with CPP Property Services Training Package Version 5.

Application

This unit of competency specifies the outcomes required to maintain cleaning consumable storage areas to ensure they are accessible to authorised personnel only, that their contents are safely stored, and that equipment is maintained in serviceable condition. It requires the ability to maintain and operate a safe and efficient cleaning storage area following established procedures for storing and using chemicals according to legislative and health and safety requirements. The unit includes the movement and control of equipment, chemicals and consumables used in the provision of cleaning services.

The unit supports cleaners who work alone or in teams. It applies to storage areas in a range of commercial and residential work sites, including cleaners' rooms at a client work site, chemical cupboards, equipment storage bays, and in-built vehicular storage arrangements to keep consumables and equipment secure during transportation.

No licensing, legislative, regulatory, or certification requirements apply to this unit of competency at the time of endorsement.

Pre-requisite Unit

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill	Performance feature
Learning skills to:	<ul style="list-style-type: none">• identify and access a range of resources to assist in maintaining security and safety of cleaning storage area.
Numeracy skills to:	<ul style="list-style-type: none">• calculate current and required levels of stock.
Oral communication skills to:	<ul style="list-style-type: none">• ask questions to clarify job requirements.
Reading skills to:	<ul style="list-style-type: none">• interpret simple, structured manufacturer instructions when using equipment and chemicals• interpret directions and safety instructions, including:<ul style="list-style-type: none">• equipment operating manuals

-
- Writing skills to:
- product labels
 - safety data sheets (SDS).
- Teamwork skills to:
- report faults in equipment to manufacturer and other personnel
 - use legible handwriting when recording stock levels and completing incident reports.
- Initiative and enterprise skills to:
- work collaboratively with others accessing and using the same storage area.
 - proactively report the need for additional products or equipment.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

- Storage area*** must include at least one of the following:
- cleaners' room located at client work site
 - in-vehicular cleaning storage facility.
 - ***Work practice in cleaning equipment store room, allocation of cleaning materials and equipment,***
- Health and safety requirements*** must include:
- access to communication devices when working alone
 - compliance with Safe Work Australia regulations and guidelines
 - electrical equipment test and tag compliance
 - emergency response procedures
 - environmental controls
 - hazard signs and barricades
 - health and safety induction and refresher training
 - manual handling techniques
 - processes for safely dispensing chemicals
 - risk assessment procedures, including:
 - hazardous chemicals register
 - hierarchy of control
 - job safety analyses (JSA) for low-risk situations
 - safe work method statements (SWMS) for high-risk situations
 - incident reporting
 - SDS
 - selection and use of required PPE
 - storage and maintenance of equipment according to manufacturer specifications
 - use of first aid according to SDS information.

CPPCLO3100 Maintain cleaning storage areas

Release: 1

CPPCLO3100 Maintain cleaning storage areas

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 15.0.

Supersedes and is equivalent to CPPCLO3035 Maintain cleaning storage areas.

Application

This unit specifies the skills and knowledge required to maintain a safe and efficient cleaning storage area following established procedures.

It applies to systematic storage of supplies of equipment, cleaning agents, consumables and personal protective equipment (PPE) in a range of sites, such as cleaners' rooms at client work sites, equipment storage bays, and in-built vehicle storage arrangements.

This unit applies to cleaning industry personnel who work alone or in teams in commercial and domestic sites. They use a range of cognitive, technical and communication skills to select and apply a range of methods, tools, materials and information to complete routine cleaning activities and provide solutions to predictable and sometimes unpredictable problems.

All work must be carried out in accordance with relevant state/territory legislation and regulations, including work health and safety (WHS), and codes of practice as well as organisational procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Cleaning

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

1 Maintain safety and security of cleaning

1.1 Identify and follow storage access and security procedures according to organisational requirements.

- | | | |
|--|-----|--|
| storage area | 1.2 | Display safety charts and warning information according to legislative, WHS and organisational requirements. |
| | 1.3 | Assess hazards and risks in storage area and control according to WHS and organisational requirements. |
| | 1.4 | Ensure storage area is kept clean, tidy and free of obstacles to allow easy access to equipment, materials, cleaning agents, and personal protective equipment (PPE) according to WHS and organisational requirements. |
| | 1.5 | Store equipment, cleaning agents and consumables according to manufacturers' instructions, WHS and organisational requirements. |
| 2 Monitor levels of cleaning supplies. | 2.1 | Store cleaning agents and consumables on a first-in, first-out basis according to organisational requirements. |
| | 2.2 | Dispose of used and out-of-date cleaning agents and waste consumables in accordance with environmental and organisational procedures. |
| | 2.3 | Record need for replacement cleaning agents and consumables to facilitate re-ordering to maintain required levels according to organisational requirements. |
| | 2.4 | Identify and report faults, wear or damage and need for maintenance and replacement equipment according to organisational requirements. |

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- reading skills to interpret safety signs and symbols in work area and on cleaning agent labels
- writing skills to record usage of cleaning agents
- numeracy skills to count stock.

Unit Mapping Information

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill	Performance feature
-------	---------------------

- Learning skills to:
- identify and access a range of resources to assist in maintaining security and safety of cleaning storage area.
- Numeracy skills to:
- calculate current and required levels of stock.
- Oral communication skills to:
- ask questions to clarify job requirements.
- Reading skills to:
- interpret simple, structured manufacturer instructions when using equipment and chemicals
- interpret directions and safety instructions, including:
- equipment operating manuals
 - product labels
 - safety data sheets (SDS).
- Writing skills to:
- report faults in equipment to manufacturer and other personnel
- use legible handwriting when recording stock levels and completing incident reports.
- Teamwork skills to:
- work collaboratively with others accessing and using the same storage area.
- Initiative and enterprise skills to:
- proactively report the need for additional products or equipment.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

- Storage area*** must include at least one of the following:
- cleaners' room located at client work site
 - in-vehicular cleaning storage facility.
 - ***Work practice in cleaning equipment store room, allocation of cleaning materials and equipment,***
- Health and safety requirements*** must include:
- access to communication devices when working alone
 - compliance with Safe Work Australia regulations and guidelines
 - electrical equipment test and tag compliance
 - emergency response procedures
 - environmental controls
 - hazard signs and barricades
 - health and safety induction and refresher training
 - manual handling techniques
 - processes for safely dispensing chemicals
 - risk assessment procedures, including:

- hazardous chemicals register
- hierarchy of control
- job safety analyses (JSA) for low-risk situations
 - safe work method statements (SWMS) for high-risk situations
 - incident reporting
- SDS
- selection and use of required PPE
- storage and maintenance of equipment according to manufacturer specifications
- use of first aid according to SDS information.

CPPCLO3103 Clean and maintain amenities

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 15.0.

Supersedes and is equivalent to CPPCLO3017 Clean wet areas.

Application

This unit specifies the skills and knowledge required to undertake regular and periodic cleaning of amenities in a range of residential, educational, community, health care, accommodation and business settings. It includes floors, surfaces, basins, sinks, toilets, urinals, showers, baths and mirrors in bathrooms, toilets, baby change areas, change rooms and laundries.

It includes the selection and use of methods, materials and equipment to clean and disinfect fittings and surfaces, empty waste and replenish consumables while following work health and safety (WHS) procedures.

This unit applies to cleaning industry personnel who work alone or in teams. They use a range of cognitive, technical and communication skills to select and apply a range of methods, tools, materials and information to complete routine cleaning activities and provide solutions to predictable and sometimes unpredictable problems.

All work must be carried out in accordance with relevant state/territory legislation and regulations, including WHS, and codes of practice as well as organisational procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Cleaning

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- 1 Prepare to clean amenities.
 - 1.1 Identify cleaning requirements and worksite access and security procedures and, if needed, clarify issues with supervisor, team member or client.
 - 1.2 Select, check for fit and serviceability, and use personal protective equipment (PPE) according to WHS and job requirements.
 - 1.3 Identify site hazards and risks and position safety signage and barriers according to WHS and job requirements.
 - 1.4 Check and document operation and pre-existing damage to amenities according to organisational requirements.
 - 1.5 Confirm types and material composition of amenities and soil types on surfaces and fittings to determine appropriate cleaning methods.
 - 1.6 Select the appropriate equipment and cleaning agents and confirm requirements for safe use according to manufacturer instructions and WHS requirements.
 - 1.7 Determine sequence of tasks for maximum hygiene and efficiency of amenity cleaning.
- 2 Clean fittings and surfaces.
 - 2.1 Pre-clean by removing superficial soil from surfaces according to job requirements.
 - 2.2 Use appropriate methods to clean amenities according to job requirements and following safe work and hygiene practices and manufacturer recommendations.
 - 2.3 Clean and disinfect frequently touched surfaces according to hygiene standards and job requirements.
- 3 Replenish consumables.
 - 3.1 Check, replace and refill empty or near empty consumables according to organisational requirements.
 - 3.2 Dispose of used consumables according to hygiene and environmental requirements.
 - 3.3 Record replenished consumable type and amount according to organisational requirements.

- | | |
|------------------------------|--|
| 4 Complete amenity cleaning. | 4.1 Tidy work area, remove safety signage and barriers and dispose of soil and waste according to work health and safety and environmental requirements. |
| | 4.2 Clean and/or dispose of PPE as required by hygiene and organisational standards. |
| | 4.3 Check cleaning equipment for faults, wear or damage, and report according to organisational requirements. |
| | 4.4 Record site cleaning and store cleaning equipment and materials according to organisational requirements. |

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- reading skills to interpret safety signs and symbols in work area and on cleaning agent labels
- numeracy skills to measure quantities of cleaning agents.

Unit Mapping Information

Supersedes and is equivalent to CPPCLO3017 Clean wet areas.

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

Assessment Requirements for CPPCLO3103 Clean and maintain amenities

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 15.0.

Supersedes and is equivalent to CPPCLO3017 Clean wet areas.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- cleaning, on at least two occasions, surfaces and fittings in three of the following types of amenities:
 - bathroom, including a bath and a separate shower
 - a baby change table
 - toilet and urinal
 - laundry.

This unit is delivered concurrently with the following unit but focus on Toilet, Gallery ,Bar area etc.

CPPCLO3035 Maintain cleaning storage areas

1. Ensure safety and security of cleaning storage area and its contents.
 - 1.1. **Storage area** is secured from unauthorised access according to legislative, company, and **health and safety requirements**.

Work practice in cleaning equipment store room, allocation of cleaning materials and equipment,
 - 1.2. **Hazards** in storage area are assessed and risks controlled according to legislative, company, and health and safety requirements.

Section 4 Chemicals in Workplace of
<http://www.iqytechnicalcollege.com/UEENEEE101AWHS.pdf>
 - 1.3. Safety warning charts and labels are prominently displayed and **safety information** is made accessible according to legislative, company, and health and safety requirements.

Personal protective equipment must

include at least two of the following:

-
- disposable respirators
- eye protection
- gloves
- protective clothing
- safety shoes.

Practical usage & Workpractice

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- personal and site security procedures and requirements:
 - site access - security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:
 - work health and safety (WHS) requirements
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)
 - types of personal protective equipment (PPE) and correct selection, care, use and disposal
 - slips, trips, falls and spills
 - manual-handling techniques when carrying, lifting, pushing and pulling
 - identification and safe practices with asbestos on site
 - correct use of signage, barriers, containment and engineering controls and PPE
 - safe use of electrical equipment
- organisational requirements for:
 - reporting incidents - accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security and breaches of site security
 - procedures for checking equipment operation and safety
 - use of cleaning equipment, cleaning agents, consumables and PPE
- types of fittings and surfaces in bathrooms, toilets, change rooms and laundries

The relevant notes for the followings are to be found by the trainees by doing Google search. The trainer can add the resources as well.

- cleaning methods and precautions for surface types:

- stainless steel, chrome and aluminium
- plastics, vinyls, laminates and rubber
- ceramic, porcelain, stone and concrete
- glass
- types of soil and methods to remove:
 - dirt, oil/grease and human waste
 - mould
 - hardwater deposits and rust
- types of cleaning agents - their purpose, action, correct use, precautions, safe handling, storage and disposal:
 - detergents
 - sanitisers
 - disinfectants
 - solvents
 - abrasives
- cleaning principles:
 - cleaning agent, time, agitation, temperature
 - significance of pH value of cleaning agents
 - sequence and direction of cleaning
 - achieve results while doing no harm
- functions and features, safe use, routine maintenance and storage of cleaning equipment:
 - absorbent cleaning cloths, dry cloths, damp cloths and lint-free cloths
 - toilet brushes
 - scrubbing brushes, scourers and scrapers
 - long-handled brushes and dustpan tongs
 - brooms and mops
 - buckets and wringer buckets
 - 'doodle bugs'
 - hoses and nozzles
 - sharps disposal units
 - scrubbing and polishing machines
 - squeegees
- selection, use, care and storage of microfibre equipment
- techniques for cleaning correctly and safely:
 - selection of appropriate equipment
 - adjusting equipment for operator height
 - operating posture and movements
- environmentally sustainable work practices and compliance with environmental regulations:
 - storage and disposal of cleaning agents
 - ways of minimising negative environmental impact
 - conserving energy and water
 - recycling
- waste disposal:

- general waste
- hazardous waste
- recyclable waste
- organic and green waste
- used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.

CPPCLO3105 Clean glass surfaces

Modification History

- Release 1 This version first released with CPP Property Services Training Package Release 15.0.
- Supersedes and is equivalent to CPPCLO3009 Clean glass surfaces.

Application

This unit specifies the skills and knowledge required to assess the glass surface to be cleaned, identify the type of soil present, and then select the appropriate cleaning methods, equipment and cleaning agents. Glass surfaces are cleaned using standard and extension equipment if height access is required.

This unit applies to cleaning industry personnel who work alone or in teams in commercial and domestic sites. They use a range of cognitive, technical and communication skills to select and apply a range of methods, tools, materials and information to complete routine cleaning activities and provide solutions to predictable and sometimes unpredictable problems.

All work must be carried out in accordance with relevant state/territory legislation and regulations, including work health and safety (WHS), and codes of practice as well as organisational procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Cleaning

Elements and Performance Criteria

- | | |
|---|--|
| Elements describe the essential outcomes. | Performance criteria describe what needs to be done to demonstrate achievement of the element. |
|---|--|

- 1 Plan and prepare to clean glass surfaces.
 - 1.1 Identify cleaning requirements and worksite access and security procedures and, if needed, clarify issues with supervisor, team member or client.
 - 1.2 Select, check for fit and serviceability, and use personal protective equipment (PPE) according to WHS and job requirements.
 - 1.3 Identify site hazards and risks, position safety signage and barriers according to WHS and job requirements.
 - 1.4 Move and protect items, as required, to permit access and prevent damage according to WHS and job requirements.
 - 1.5 Check and document pre-existing damage to surfaces according to organisational requirements.
 - 1.6 Confirm glass features and soil type to determine the appropriate equipment and cleaning agents and confirm requirements for safe use according to manufacturer instructions.
 - 1.7 Select and prepare the appropriate equipment and cleaning agents and determine sequence of tasks according to WHS and job requirements.
- 2 Clean glass.
 - 2.1 Spot clean by carefully removing soil from glass surface, as required, using appropriate methods.
 - 2.2 Wash and remove excess moisture using equipment and cleaning agents according to manufacturer recommendations, WHS and job requirements.
 - 2.3 Wipe surrounding surfaces to remove soil and waste according to job requirements.
- 3 Complete work activities.
 - 3.1 Tidy work area, remove safety signage, barriers and protective covers and dispose of soil and waste in accordance with WHS and environmental requirements.
 - 3.2 Safely clean and/or dispose of PPE as required by organisational standards.

- 3.3 Check cleaning equipment for faults, wear or damage and report in accordance with organisational requirements.
- 3.4 Record site cleaning and store cleaning equipment and materials in accordance with organisational requirements.

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- reading skills to interpret safety signs and symbols in work area and on cleaning agent labels
- numeracy skills to measure quantities of cleaning agents.

Unit Mapping Information

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill	Performance feature
Learning skills to:	<ul style="list-style-type: none"> • identify and access a range of resources to assist in maintaining security and safety of cleaning storage area.
Numeracy skills to:	<ul style="list-style-type: none"> • calculate current and required levels of stock.
Oral communication skills to:	<ul style="list-style-type: none"> • ask questions to clarify job requirements.
Reading skills to:	<ul style="list-style-type: none"> • interpret simple, structured manufacturer instructions when using equipment and chemicals <p>interpret directions and safety instructions, including:</p> <ul style="list-style-type: none"> • equipment operating manuals product labels • safety data sheets (SDS).
Writing skills to:	<ul style="list-style-type: none"> • report faults in equipment to manufacturer and other personnel <p>use legible handwriting when recording stock levels and completing incident reports.</p>
Teamwork skills to:	<ul style="list-style-type: none"> • work collaboratively with others accessing and using the same storage area.
Initiative and enterprise skills to:	<ul style="list-style-type: none"> • proactively report the need for additional products or equipment.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

- Storage area*** must include at least one of the following:
- cleaners' room located at client work site
 - in-vehicular cleaning storage facility.
 - ***Work practice in cleaning equipment store room, allocation of cleaning materials and equipment,***
- Health and safety requirements*** must include:
- access to communication devices when working alone
 - compliance with Safe Work Australia regulations and guidelines
 - electrical equipment test and tag compliance
 - emergency response procedures
 - environmental controls
 - hazard signs and barricades
 - health and safety induction and refresher training
 - manual handling techniques
 - processes for safely dispensing chemicals
 - risk assessment procedures, including:
 - hazardous chemicals register
 - hierarchy of control
 - job safety analyses (JSA) for low-risk situations
 - safe work method statements (SWMS) for high-risk situations
 - incident reporting
 - SDS
 - selection and use of required PPE
 - storage and maintenance of equipment according to manufacturer specifications
 - use of first aid according to SDS information.

HLTINFCOV001 Comply with infection prevention and control policies and procedures (Elective 7)
- DAMP Awareness (BSBWHS211 Contribute to the health and safety of self and others)Core

Hazards that must be assessed include:

- biological and environmental contaminants
- chemical exposure via absorption, ingestion and inhalation
- chemical reactivity
- dust and fibre particulates
- electrical
- environmental allergens
- explosions
- fatigue
- fire
- manual handling
- noise
- poor ventilation
- slips, trips and falls
- syringes and sharps
- working in confined spaces.

Work Health and Safety Awareness & Bio Security

Equipment must include at least five of the following:

- access equipment, such as ladders
- bins
- brooms
- buckets
- buffers
- cleaning trolleys
- cloths
- cobwebbers
- doodle bag holders
- drop sheets
- drying equipment
- dustpans and brushes
- dusters
- extension poles
- extraction units
- wands
- hoses
- microfibre products
- mops
- polishers
- pressure-washing equipment and attachments
- scouring pads
- scrapers
- scrubbers
- sponges
- spray bottles
- squeegees

steam cleaners

- sweepers

vacuum cleaners and attachments

- window cleaning equipment

work site communication devices.

Cleaning chemicals must include at least one of the following:

- acid cleaners
- alkaline cleaners
- low environmental impact chemicals
- neutral cleaners
- solvent cleaners.

www.iqytechnicalcollege.com/AircraftCabinCleaningMethodEquipment.pdf

Consumables must include at least two of the following:

- air fresheners
- hand towels
- liner bags
- soap
- toilet paper.

www.iqytechnicalcollege.com/AircraftCabinCleaningMethodEquipment.pdf

Personal protective equipment must include at least two of the following:

- disposable respirators
- eye protection
- gloves
- protective clothing
- safety shoes.

Practical usage & Workpractice

Assessment Requirements for CPPCLO3105 Clean glass surfaces

Modification History

- Release 1 This version first released with CPP Property Services Training Package Release 15.0.
- Supersedes and is equivalent to CPPCLO3009 Clean glass surfaces.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- cleaning, on at least two occasions, three surfaces each made of a different glass type selected from:
 - mirrored glass
 - frosted or textured/patterned glass
 - float glass (common glass type)
 - toughened glass
 - coated glass (special reflection/transmission/absorption properties).

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- personal and site security procedures and requirements:
 - site access - security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:
 - work health and safety (WHS) requirements
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)
 - types of personal protective equipment (PPE) and correct selection, care, use and disposal
 - slips, trips, falls and spills
 - manual-handling techniques when carrying, lifting, pushing and pulling
 - identification and safe practices with asbestos on site
 - correct use of signage, barriers, containment and engineering controls and PPE

- safe use of electrical equipment
- organisational requirements for:
 - reporting incidents - accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security and breaches of site security

The trainees need to perform Google Search to get the information related to the followings

The trainer can add the resources as well

- procedures for checking equipment operation and safety
- use of cleaning equipment, cleaning agents, consumables and PPE
- types of glass and methods and precautions for cleaning
- types of soils and methods to remove:
 - dust and dirt, oil/grease, food, beverages, and biological hazardous soil such as bird and insect droppings
 - adhered and built-up soils
- functions and features, safe use, routine maintenance and storage of standard and extension cleaning equipment:
 - buckets
 - chamois
 - cobwebbers
 - extension poles
 - glass scrapers
 - hoses
 - lamb's wool applicator
 - lint-free cloths
 - microfibre products
- selection, use, care and storage of microfibre equipment
- glass cleaning agents - their purpose, action, correct use, precautions, safe handling, storage and disposal
- cleaning principles:
 - cleaning agent, time, agitation, temperature
 - significance of pH value of cleaning agents
 - sequence and direction of cleaning
 - achieve results while doing no harm
- environmentally sustainable work practices and compliance with environmental regulations:
 - storage and disposal of cleaning agents
 - ways of minimising negative environmental impact
 - conserving energy and water
 - recycling
- waste disposal:
 - general waste
 - hazardous waste

- recyclable waste
- organic and green waste
- used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.

Links

Companion volumes to this training package are available at the VETNet website - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=6f3f9672-30e8-4835-b348-205dfcf13d9b>

CPPCLO3113 Clean food-handling areas and equipment

Modification History

- Release 1 This version first released with CPP Property Services Training Package Release 15.0.
Supersedes and is equivalent to CPPCLO3038 Clean food-handling areas.

Application

This unit specifies the skills and knowledge required to undertake regular or periodic cleaning of areas where food is received, inspected, stored, handled, prepared, processed, packaged or transported, including food courts, kitchens or food-processing areas.

It includes assessing the extent of the cleaning task and selecting and using the required cleaning methods, equipment and cleaning agents.

This unit applies to cleaning industry personnel who work alone or in teams. They use a range of cognitive, technical and communication skills to select and apply a range of methods, tools, materials and information to complete routine cleaning activities and provide solutions to predictable and sometimes unpredictable problems.

All work must be carried out in accordance with relevant state/territory legislation and regulations, including work health and safety (WHS), and codes of practice as well as organisational procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Cleaning

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | | | |
|---|---|-----|--|
| 1 | Plan and prepare to clean food-handling | 1.1 | Identify cleaning requirements and worksite access and security procedures and, if needed, clarify issues with |
|---|---|-----|--|

- areas. supervisor, team member or client.
- 1.2 Maintain personal hygiene and select, check for fit and serviceability and use personal protective equipment (PPE) according to WHS and job requirements.
 - 1.3 Identify site hazards and risks, position safety signage and barriers and cover items and areas requiring protection according to WHS and job requirements.
 - 1.4 Check and document pre-existing damage to areas and equipment according to organisational requirements.
 - 1.5 Determine appropriate cleaning and sanitising required based on type of equipment and surfaces, and soil types.
 - 1.6 Select the appropriate equipment and cleaning agents and confirm requirements for safe use according to manufacturer instructions.
 - 1.7 Determine sequence of tasks for maximum hygiene and efficiency of area cleaning.
- 2 Clean and sanitise food-handling surfaces and equipment.
- 2.1 Move and protect items that impede cleaning activities according to WHS and job requirements.
 - 2.2 Pre-clean by removing superficial soil and debris from food-handling surfaces prior to applying selected cleaning method.
 - 2.3 Use appropriate cleaning methods and equipment to clean food-handling surfaces according to WHS, manufacturer recommendations and job requirements.
 - 2.4 Sanitise food-handling equipment and surfaces according to manufacturer specifications and job requirements.
- 3 Complete work activities.
- 3.1 Empty, clean and sanitise rubbish bins and insert new bin liners according to WHS and job requirements.
 - 3.2 Tidy work area, remove safety signage and barriers and dispose of soil and waste in accordance with WHS and environmental requirements.
 - 3.3 Clean and/or dispose of PPE as required by organisational standards.

- 3.4 Replenish consumables and supplies, if required, according to job and organisational requirements.
- 3.5 Check cleaning equipment for faults, wear or damage and report in accordance with organisational requirements.
- 3.6 Report condition of equipment or surfaces inconsistent with food-safety according to hygiene and organisational requirements.
- 3.7 Record site cleaning and store cleaning equipment and materials in accordance with organisational requirements.

Foundation Skills

As well as the foundation skills explicit in the performance criteria of this unit, candidates require:

- reading skills to interpret safety signs and symbols in work area and on cleaning agent labels
- numeracy skills to measure quantities of cleaning agents.

Unit Mapping Information

Supersedes and is equivalent to CPPCLO3038 Clean food-handling areas.

Assessment Requirements for CPPCLO3113 Clean food-handling areas and equipment

Modification History

- Release 1 This version first released with CPP Property Services Training Package Release 15.0.
- Supersedes and is equivalent to CPPCLO3038 Clean food-handling areas.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- cleaning two of the following food-handling areas:
 - a commercial food-preparation area
 - a commercial food-processing area
 - an office kitchenette
 - a residential kitchen
 - a public food court.

Candidates must clean each selected food-handling area on at least two occasions.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- aspects of the following standard relevant to cleaning food premises, fixtures, fittings and equipment:
 - Food Safety Standard 3.2.2., Division 5 – Cleaning, sanitising and maintenance
- personal and site security procedures and requirements:
 - site access - security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:
 - work health and safety (WHS) requirements
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)
 - types of personal protective equipment (PPE) and correct selection, care, use and disposal

- slips, trips, falls and spills
- manual-handling techniques when carrying, lifting, pushing and pulling
- identification and safe practices with asbestos on site
- correct use of signage, barriers, containment and engineering controls and PPE
- safe use of electrical equipment
- organisational requirements for:
 - reporting incidents - accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security and breaches of site security
 - procedures for checking equipment operation and safety

**The trainees need to do Google Search to find the resources related to the followings.
The trainer can add them as well**

- use of cleaning equipment, cleaning agents, consumables and PPE
- cleaning methods and precautions for surface types:
 - stainless steel, chrome and aluminium
 - plastics, vinyls, laminates and rubber
 - ceramic, porcelain, stone and concrete
 - glass
- common types of soil in food-handling areas and methods to remove:
 - dust and dirt, oil/grease, raw and cooked food, and beverages
 - adhered and built-up soils
- functions, features, safe use, care and storage of cleaning equipment:
 - wet and dry mops
 - brushes and brooms
 - cloths
 - selection, use, care and storage of microfibre equipment
- types of cleaning agents - their purpose, action, correct use, precautions, safe handling, storage and disposal:
 - detergents
 - sanitisers
 - disinfectants
 - solvents
 - abrasives
- cleaning principles:
 - cleaning agent, time, agitation, temperature
 - significance of pH value of cleaning agents
 - sequence and direction of cleaning
 - achieve results while doing no harm
- environmentally sustainable work practices and compliance with environmental regulations:

- storage and disposal of cleaning agents
- ways of minimising negative environmental impact
- conserving energy and water
- recycling
- waste disposal:
 - general waste
 - hazardous waste
 - recyclable waste
 - organic and green waste
 - used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.

Australian Government

SITHACS003 Prepare rooms for guests

Release: 1

SITHACS003 Prepare rooms for guests

Modification History

Not applicable.

Application

This unit describes the performance outcomes, skills and knowledge required to clean and prepare rooms, including bedrooms and bathrooms, in an accommodation establishment. It requires the ability to set up cleaning equipment and trolleys and to safely clean guest rooms using resources efficiently to reduce negative environmental impacts.

The unit applies to housekeeping attendants in commercial accommodation establishments. They work under supervision and usually as part of a team.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Competency Field

Accommodation Services

Unit Sector

Hospitality

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare for room servicing.	1.1. Identify rooms requiring service from information supplied. 1.2. Select and prepare room servicing equipment and cleaning agents according to work schedule and product instructions. 1.3. Identify supplies for trolleys and select or order in sufficient numbers. 1.4. Load trolleys safely with adequate supplies. 1.5. Access rooms according to organisational customer service and security procedures.

Economy, Business and First Class Cabin Presentation

- procedure.Putting Headrest, Pillows, Blankets, Seat, Belt Practice.**
2. Make up beds.
 - 2.1.Strip beds and mattresses and check pillows and linen for stains and damage.
 - 2.2.Replace stained and damaged linen according to organisational standards.

**Economy, Business and First Class Cabin Presentation
procedure.Putting Headrest, Pillows, Blankets, Seat, Belt Practice**

3. Clean rooms.
 - 3.1.Select and use cleaning agents or chemicals for specific areas, surfaces and equipment, according to manufacturer recommendations, **work health and safety** and **organisational procedures**.
 - 3.2.Clean rooms in logical order and with minimum disruption to guests.
 - 3.3.Identify and respond to **hazards**.
 - 3.4.Reduce negative environmental impacts through efficient use of energy, water and other resources.
 - 3.5.Identify pests and take appropriate action.

Cabin cleaning, removing rubbishs, vacuuming practice

4. Organise rooms.
 - 4.1.Check and reset **furniture, fixtures** and **fittings**.
 - 4.2.Check and replenish or replace **room supplies**.
 - 4.3.Collect and store guest items left in vacated rooms.

**Economy, Business and First Class Cabin Presentation
procedure.Putting Headrest, Pillows, Blankets, Seat, Belt Practice.**

Bring the supplies

5. Check rooms.
 - 5.1.Identify room defects, damaged items or suspicious items or occurrences.
 - 5.2.Report items for follow-up by maintenance teams.
 - 5.3.Check all aspects of room set-up and cleanliness prior to leaving.

Checking of cabin

6. Check and store trolleys and equipment.
 - 6.1.Clean trolleys and store equipment after use.
 - 6.2.Safely dispose of all waste and hazardous substances according to environmental requirements.
 - 6.3.Check supplies and replenish or reorder according to organisational procedures.

Use of trolleys

Foundation Skills

Foundation skills essential to performance in this unit, but not explicit in the performance criteria are listed here, along with a brief context statement.

SKILLS	DESCRIPTION
Reading skills to:	<ul style="list-style-type: none"> understand and follow schedules for room servicing read and interpret workplace documents and diagrams in: <ul style="list-style-type: none"> safety and waste disposal procedures safety data sheets (SDS) and product instructions for cleaning agents and chemicals.
Writing skills to:	<ul style="list-style-type: none"> complete orders to replace out of stock room supplies and cleaning materials.
Numeracy skills to:	<ul style="list-style-type: none"> follow simple dilution requirements for chemicals and cleaning products, and calculate ratios in order to make them up record quantities of cleaning materials and room supplies required.
Learning skills to:	<ul style="list-style-type: none"> locate key information in-room servicing schedules and procedures manuals.
Problem-solving skills to:	<ul style="list-style-type: none"> identify and deal with common room servicing challenges.
Planning and organising skills to:	<ul style="list-style-type: none"> efficiently sequence the stages of cleaning and preparing rooms.
Self-management skills to:	<ul style="list-style-type: none"> manage own speed, timing and productivity recognise a chemical accident and follow safety procedures to contain it.
Technology skills to:	<ul style="list-style-type: none"> use electrical cleaning equipment.

Range of Conditions

Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Range is restricted to essential operating conditions and any other variables essential to the work environment.

<i>Work health and safety procedures</i> must include:	<ul style="list-style-type: none"> information on hazardous substances and storage requirements use of safe manual-handling techniques SDS.
---	--

Organisational procedures must include:

- hygienic personal contact with food and food contact surfaces
- hygienic cleaning practices:
 - cleaning food contact surfaces with clean tea towels and cleaning cloths
 - preventing cross-contamination of bacteria from bathroom or bedroom areas to mini-bar or kitchen areas
- use of personal protective equipment.

Hazards must include:

- breakages
- heated utensils and surfaces
- human waste
- sharp items:
 - knives
 - needles and syringes
- surgical dressings
- wet or slippery surfaces.

Furniture, fixtures and fittings must include:

- desks
- floor surfaces
- light fittings
- mirrors and glassware
- refrigerators
- shelving
- soft furnishings
- telephones
- televisions
- wardrobes.

Room supplies must include:

- bathroom supplies
- discretionary supplies and gifts
- coffee and tea supplies
- crockery, cutlery and glassware
- digital equipment
- kitchen equipment
- linen
- information:
 - local tourist information
 - magazines and newspapers
 - promotional material
 - stationery.

SITHKOP001 Clean kitchen premises and equipment

Release: 1

SITHKOP001 Clean kitchen premises and equipment

Modification History

Not applicable.

Application

This unit describes the performance outcomes, skills and knowledge required to clean food preparation areas, storage areas, and equipment in commercial kitchens to ensure the safety of food. It requires the ability to work safely and to use resources efficiently to reduce negative environmental impacts.

This unit is particularly important within a food safety regime and applies to all hospitality and catering organisations with kitchen premises, including permanent or temporary kitchens or smaller food preparation areas. These can be found within restaurants, cafes, kiosks, cafeterias, clubs, hotels, attractions and in catering facilities.

The unit applies to kitchen personnel who work with very little independence and under close supervision, including kitchen attendants and stewards. It can also apply to cooks and chefs in small organisations.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Pre-requisite Unit

SITXFSA001 Use hygienic practices for food safety

Competency Field

Kitchen Operations

Unit Sector

Hospitality

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1. Clean and sanitise kitchen equipment.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1. Select and prepare cleaning agents and chemicals according to cleaning schedule and product instructions.
- 1.2. Clean and sanitise kitchen equipment to ensure safety of food that is prepared and served to customers.

- 1.3. Store cleaned equipment in designated place.
2. Clean service-ware and utensils.
 - 2.1. Sort service-ware and utensils and load dishwasher with appropriate items.
 - 2.2. Hand wash any items not appropriate for dishwasher.
 - 2.3. Dispose of broken or chipped service-ware within scope of responsibility, and report losses to supervisor.
 - 2.4. Ensure that sufficient supplies of clean, undamaged crockery are available at all times during the service period.
3. Clean and sanitise kitchen premises.
 - 3.1. Clean and sanitise kitchen surfaces and **food preparation and storage areas** according to cleaning schedule to ensure the safety of food that is prepared and served to customers.
 - 3.2. Clean areas of any animal and pest waste and report incidents of infestation.
 - 3.3. Follow safety procedures in the event of a chemical accident.
 - 3.4. Sort and remove linen according to organisational procedures.
 - 3.5. Sort and promptly dispose of kitchen waste to avoid cross-contamination with food stocks.
4. Work safely and reduce negative environmental impacts.
 - 4.1. Use cleaning agents, chemicals and cleaning equipment safely and according to manufacturer instructions.
 - 4.2. Use personal protective equipment and safe manual handling techniques when cleaning equipment and premises.
 - 4.3. Reduce negative environmental impacts through efficient use of energy, water and other resources.
 - 4.4. Sort general kitchen waste from recyclables and dispose of them in designated recycling bins.
 - 4.5. Safely dispose of kitchen waste, especially hazardous substances, to minimise negative environmental impacts.

This unit is delivered concurrently with the following unit but focus on Gallery and Food service equipment

CPPCLO3035 Maintain cleaning storage areas

1. Ensure safety and security of cleaning storage area and its contents.
 - 1.1. **Storage area** is secured from unauthorised access according to legislative, company, and **health and safety requirements**.
Work practice in cleaning equipment store room, allocation of cleaning materials and equipment,
 - 1.2. **Hazards** in storage area are assessed and risks controlled

according to legislative, company, and health and safety requirements.

Foundation Skills

Foundation skills essential to performance in this unit, but not explicit in the performance criteria are listed here, along with a brief context statement.

SKILLS	DESCRIPTION
Reading skills to:	<ul style="list-style-type: none"> • read and interpret workplace documents and diagrams in: <ul style="list-style-type: none"> • safety and waste disposal procedures • safety data sheets (SDS) and product instructions for cleaning agents and chemicals.
Writing skills to:	<ul style="list-style-type: none"> • complete orders to replace out of stock cleaning materials.
Oral communication skills to:	<ul style="list-style-type: none"> • report infestation incidents, providing specific information regarding pest waste and discussing approach to treatment.
Numeracy skills to:	<ul style="list-style-type: none"> • follow simple dilution requirements for chemicals and cleaning products, and calculate ratios in order to make them up.
Learning skills to:	<ul style="list-style-type: none"> • locate key information in cleaning schedules and procedures manuals.
Planning and organising skills to:	<ul style="list-style-type: none"> • efficiently sequence the stages of cleaning kitchen equipment and premises.
Self-management skills to:	<ul style="list-style-type: none"> • manage own speed, timing and productivity • recognise a chemical accident and follow safety procedures to avoid food contamination.

Technology skills to:

- use automatic dishwashers and reassemble kitchen equipment after cleaning.

Range of Conditions

Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Food preparation and storage areas must include:

- benches and working surfaces
- cool rooms
- cupboards
- pantry
- freezers
- fridges
- microwaves
- ovens
- storerooms
- stoves.
