List of further practical to develop

Practical	Number	Practical Name	Remark	Complete
PR	53	Smoke detector connection	Teacher Demonstration + Students do only online themselves	
PR	54	Emergency light connection	Teacher Demonstration + Students do only online themselves	
PR	55	Three phase circuit study with Single phase to three phase converter	Teacher Demonstration + Students do only online themselves	
PR	56	DC Motor Test	Teacher Demonstration + Students do only online themselves	
PR	57	Three phase AC Motor Test	Teacher Demonstration + Students do only online themselves	
PR	58	Polarity Testing of transformer	Teacher Demonstration + Students do only online themselves	
PR	59	Star and delta connection of three transformers	Teacher Demonstration + Students do only online themselves	
PR	60	Current divider and potential divider theorem	Teacher Demonstration + Students do only online themselves	
PR	61	Conduit cutting ,bending and threading	Students do themselves	
PR	62	Installation of various lights	Teacher Demonstration + Students do only online themselves	
PR	63	Connection of water heater circuit and components	Teacher Demonstration + Students do only online themselves	
PR	64	Connection of electric range circuit and components	Teacher Demonstration + Students do only online themselves	

PR 65	Catenary cable and consumer main connection	Teacher Demonstration + Students do only online themselves	
PR 66	Analogue meter readings and variable DC Power supply	Teacher Demonstration + Students do only online themselves	
PR 67	Variable frequency supply and inductance	Teacher Demonstration + Students do only online themselves	
PR 68	Variable frequency supply and capacitance	Teacher Demonstration + Students do only online themselves	
PR 69	Timer and relay	Teacher Demonstration + Students do only online themselves	
PR 70	Guillotine and sheet metal work	Students do themselves	
PR 71	Single phase AC Motor Test	Teacher Demonstration + Students do only online themselves	
PR 72	Assembling the structure	Students do themselves
