

Graduate Diploma of Applied Electrical Engineering

UEE30820+ UEE62122 + Diploma in Electrical Engineering course units as practical aspect and use the units similar to degree level to design a Two Years Graduate Diploma of Applied Electrical Engineering. There may contain 24 subjects.

By combining two years UEE62122, total duration of the combined course will be 4 Years training that can meet Engineers Australia's Professional Engineer Recognition.

The mapping to be aligned with "stage-1-competency-standard-professional-engineer"
