(Teacher Professional Conduct)

Professional relationships between employees and students

You must not develop a relationship with any student that is, or that can be misinterpreted as having a personal rather than a professional interest in a student.

You must not enter into a romantic or sexual relationship with any student (including any adult student) that you are responsible for teaching, tutoring, advising, assessing, or for whom you provide pastoral or welfare support. To do so raises serious questions of conflict of interests, trust, confidence, dependency, and of equality of treatment. Such relationships may also have a negative impact on the teaching and learning environment for other students and colleagues, and may carry a serious reputational risk for the Department.

Where a personal relationship, such as family relationship or close friendship exists between you and a student, or where there is a preexisting sexual relationship with an adult student attending the same workplace, you must report the conflict of interest, or any potential conflict, to your supervisor or principal, and it must be managed carefully. Wherever practical, you should avoid teaching or being involved in educational decisions involving family members or close friends. Staff should make any significant decisions relating to the student's assessments and have those endorsed by a supervisor.

Your professional relationship may be compromised if you: • invite students to join your personal electronic social networking site or accept students' invitations to join theirs • attend parties or socialise with students • invite a student or students back to your home or attend theirs without an appropriate professional reason and without the consent of their parent or carer • transport a school student in your car without prior approval from a supervisor and a parent or carer.

The boundaries of the professional relationship will be breached if you: • have a sexual relationship or develop an intimate relationship with a student • use sexual innuendo or inappropriate language and/or material with students • hold conversations of an intimately personal nature, where you disclose private information about yourself • have contact with a student via written or electronic means including email, letters, telephone, text messages or chat lines, without a valid context • give students gifts of a personal nature that encourages them to think they have an individual and special relationship with you

## ADMISSIONS PHILOSOPHY

The University seeks mature, capable students who have the preparation and motivation needed to accomplish their academic and professional goals. In addition, it is expected that successful applicants will demonstrate a commitment to and a passion for their chosen field of study.

The University shall admit any student who is obviously qualified or who does appear to have a reasonable prospect of completing the program. Applications will be reviewed by Office of Admissions to ensure that the candidate is of good quality for admissions. Candidates must also be able to demonstrate significant potential and promise of completing the program. This can be demonstrated with prior academic performance, professional experience and life experiences. The University exercises an open admissions policy. That is, all students who apply and meet the admissions criteria will be admitted into the program.

The University welcomes all students and does not discriminate on the basis of race, color, national origin, religion, disability, gender or in any other way in its policies, practices, or procedures involving applicants, students, faculty, staff and the public. Please note, however, that the University reserves the right to refuse admission to anyone the University believes does not meet its academic standards.

## NON-MATRICULATED APPLICANTS

All applicants must matriculate into an academic program. No non-program applicants shall be accepted.

## GRADUATE ENTRANCE EXAMINATIONS

No graduate entrance examinations are required at the time of admissions.

## WAIVER OF BACHELOR DEGREE REQUIREMENT

In special circumstances, the University may not require an earned bachelor degree to be admitted into the graduate degree program. This is permissible if the applicant has achieved sequential learning equivalent in breadth of knowledge and understanding (i.e., general education) and equivalent in depth of achievement in business administration or management to that acquired in four years of study beyond high school, as measured by a minimum of 120 semester units or its equivalent in other units of credit.

## HIGH SCHOOL ATTESTATION

If applicant is applying for Associate degree program and has no prior college coursework completed, applicant must complete High School Attestation form.

## OFFICIAL TRANSCRIPT

You must contact every college or university you have attended and request that an official transcript be sent to the Office of Admissions. An official transcript is one that is sent directly to IAU from the issuing institution. Prior college and university transfer courses and/or degrees must be from an institution approved by a State Approval Agency (SAA), nationally or regionally accredited, or a foreign equivalent. A minimum of a 2.0 cumulative grade point average depicted will be considered for transfer. An official transcript is one that has been received directly from the issuing University. It must bear the college seal, date, and an appropriate signature.

#### TRANSFER CREDIT (TC)

The University will consider accepting transfer students from other schools as determined by the Office of Admissions. To transfer to the University, an applicant must file an application for admission, satisfy all admission requirements, and submit official copies of transcripts from all schools previously attended. The Director of Admissions has the sole discretion to award transfer credits.

#### STANDARDIZED EXAM CREDIT (SEC)

The University welcomes students from a wide variety of backgrounds and learning experiences. The University recognizes their prior learning by accepting a full range of standardized exams, which measure mastery of college-level, introductory course content in a wide range of disciplines. Students who obtain the credit-granting score required can earn credits and course exemptions. The University establishes standards that are recommended by the American Council on Education (ACE). The University grants a credit on standardized exams for undergraduate credit only. Official exam scores must be sent from crediting exam center.

For list of Standardized Exams, the University accepts, visit website: [www.iau.la/adm/policies.asp](http://www.iau.la/adm/policies.asp)

#### EXPERIENTIAL LEARNING CREDIT (ELC)

IAU recognizes that learning may take place in settings other than the college classroom. Many adult students have acquired knowledge from training or life experiences (a job, self education or practical experience), which is equivalent to that provided in the classroom. Where college level learning from these experiences can be verified and properly documented, IAU will award college credit.

IAU is one of a growing number of colleges and universities which are receptive to the idea of awarding credit for the learning acquired through non-college experience prior to entering or returning to the pursuit of a college degree. Such learning, frequently called Prior Experiential Learning, may result from such activities as work experience, volunteer work, community service, travel abroad or internationally, military or Peace Corps experience, independent reading or conversations with experts.

Prior Experiential Learning credit can save money and reduce the length of time to achieve a degree. Although numerous other colleges also recognize experiential learning, IAU sets its own standards on what and how many credits it will accept in transfer. Students intending to transfer should inquire of that school how experiential credit will be accepted. The maximum amount of experiential learning credit which may be awarded depends on the academic program enrolled.

- **Save Time.** Successful completion of a Request for Prior Experiential Learning credit can cut a significant amount of time from the degree-completion process.
- **Save Money.** Credits awarded through Request for Prior Experiential Learning credit assessment are evaluated for a fee much lower than tuition.
- **Gain Understanding.** The process helps students understand how they have acquired learning.
- **Value Knowledge.** Credit awards show the value of experiential learning.

## ENGLISH FLUENCY FOR INTERNATIONAL APPLICANTS

No program applicant is admissible unless she/he can demonstrate proficiency in the English language. At the Office of Admissions' discretion, proficiency may be demonstrated by:

1. Completion of certificate or degree program in country where English is primary language;
2. Writing sample, personal interview, nature of current employment; or
3. Special exams: IAU Institutional TOEFL/TOEFL 500+ (PBT) / 173+ (CBT) / 61+ (IBT)

## APPLICANTS WITH FOREIGN DEGREES

If you completed your degree at a foreign (outside of the United States) college or university, you will need to submit a professional General Report foreign credential evaluation. If you want to receive transfer credit for coursework you have completed at a foreign (outside of the United States) college or university you will need to submit a professional Course-By-Course evaluation of your coursework.

These agencies will interpret your educational credentials and identify the U.S. equivalents in terms of both credits and degrees. They can also evaluate high school work if you need proof that you have the equivalent of a U.S. high school diploma.

Official evaluation of your credentials by one of these agencies does not guarantee that **IQY** will accept all or any of your coursework. The final decision for the acceptance of transfer credits is determined by IAU, not the agency doing the evaluation of your foreign credentials. For list of approved credential evaluating agencies, visit website:

## APPLICATION PROCESS & PROCEDURES

Applicants applying to academic programs must go through the University's Admissions process. The Admissions process is a process that assists the student in achieving his or her educational goals. It is an agreement between the college and the student who enrolls for credit. IAU asks that you participate in the matriculation process with us to ensure your educational success. If you commit to an educational goal, we commit to helping you succeed.

1. Applicants must submit a completed Admissions Portfolio. The completed Admissions Portfolio and any supporting materials (such as transcripts and test scores) become the property of the University and will not be returned to the applicant or transmitted to a third party.
  - Application for Admissions (required): Complete all items on the printed Application for Admission form.
  - 
  - Library Acknowledgement Form (required): Student will be responsible for obtaining access to sufficient library resources. Student must complete and submit the library acknowledgement form.
  - Official Transcripts (required): Request official transcripts from all Colleges or Universities that you have attended since graduating high school. You may submit personal copies for evaluation purposes. Official copies must be received directly from the issuing College or University prior to official enrollment.
  - High School Attestation (optional): If applicant is applying for Associate degree program and has no prior college coursework completed, applicant must complete High School Attestation form.
  - Foreign Credential Evaluation (FCE) (required for foreign students): If you completed your degree at a foreign (outside of the United States) college or university, you will need to submit a professional foreign credential evaluation.
  - Bachelor Degree Waiver (optional): If applicant is applying for Bachelor degree waiver for graduate degree program, please complete Application for Bachelor Degree Equivalency. Please complete and submit this application and associated fees in addition to the standard Application for Admissions and Application Fee. This application does not substitute the standard Application for Admissions.
  - Standardized Exam Credit (optional): Submit any exams cores directly to the Office of Admissions.
  - Experiential Learning Credit (ELC) (optional): The University recognizes that not all learning takes place in a traditional classroom, and we are pleased to offer students a way to receive college credit for learning they have acquired through their professional and life experiences. Upon applying, you may submit this Prior Experiential Learning Credit request to the Office of Admissions for review.
2. After the Admissions Portfolio has been received, the Office of Admissions will conduct a formal Academic Credential Evaluation (ACE). This will allow the applicant to understand what credit has been awarded for transfer credit, standardized exams, and experiential credit.
3. If the applicant is accepted for admission, an acceptance letter will be sent to the applicant. If the applicant is not accepted, the Office of Admissions will send a letter to the applicant informing applicant of the decision, stating why his/her qualifications are deficient.

## STUDY GROUPS

### Residential Students

The University believes that study groups can be very valuable in the learning process. They can provide support, discipline, and ready feedback. Residential Students can form study groups on campus.

### Distance Learning Students

As with any distance-learning program with students throughout the world, it is difficult for students to convene in traditional study groups for learning purposes. The University provides for "electronic interaction" between students and their Faculty Mentors, which it believes offsets this limitation. Through electronic means, students are in direct one-on-one contact with their Faculty Mentors and Academic Advisors to enhance their learning.

## LIBRARY SERVICES

### Residential Students

The library of the University exists primarily to serve the scholarly and research needs of the faculty and students of University. The library contains mainly specialized holdings in those subject areas relevant to the University's course offerings- Business and English.

### Distance Learning Students

Students will be required to use his or her best judgment to evaluate the Library Resources required to successfully complete the educational program and determine if Student can comfortably meet those needs.

## TRANSCRIPT SERVICES

The University will provide you with one transcript at no charge when you graduate from your program. If you wish to order additional transcripts, send a written request containing your signature to the Office of Admissions & Records. The fee for an official copy is \$10.00. A check or money order must accompany your request or the request will not be processed. Transcript request form can be downloaded online. Visit: [www.iau.la/adm/forms.asp](http://www.iau.la/adm/forms.asp)

## CAREER PLANNING & PLACEMENT

The University's programs do not prepare graduates for a specific occupation or employment and does not provide formal career planning services. All students are encouraged to speak with the Office of Student Services, faculty, and instructors regarding career and professional planning. The University will provide a list of employers who have contacted the University offering employment opportunities. These postings will be made available on the public bulletin board or online in the student resources page.

## ALUMNI ASSOCIATION

The mission of the Alumni Association of the University is to foster a mutually beneficial relationship between the University and its alumni ... to perpetuate a sense of pride in and commitment to the outstanding qualities of the University and the education it provides, and to promote, in partnership, a positive image of the University and its alumni through communication, service and leadership.

University policies have been established to create a safe and productive academic and work environment. All university employees and students are expected to be familiar with these policies and to follow them. University policies are subject to change at any time and faculty, staff and students are responsible for familiarizing themselves with current policies. Individuals with questions about a particular policy should contact the main administrative offices.

## ATTENDANCE POLICY

### Residential Students

Regular and punctual attendance, as well as active student participation, is an important part of a student's education. Except for emergencies, students will notify the University twenty-four (24) hours in advance of any absences. Student must maintain satisfactory academic progress. Attendance is strictly monitored. All missed assignments and/or additional assignments must be completed according to professors' guidelines.

### Distance Learning Students

Since the University provides a distance learning program for its students and requires no classroom attendance, campus attendance is not necessary.

## WITHDRAW / DROP POLICY

A student may withdraw / drop from the University at any time during the term by the last day of regularly scheduled classes by completing the proper forms from the Office of Admissions & Records. Official notification in writing must be received before any withdrawal from the University is processed. Student's cancellation notices must be in writing and that a withdrawal may be noticed by a student in writing or by the student's conduct including lack of attendance.

Students who wish to withdraw from their program of study should send a written notice to the

**E mail: [admin@iqytechnicalcollege.com](mailto:admin@iqytechnicalcollege.com)**

The e-mail address is [registrar@iau.la](mailto:registrar@iau.la). The notice of cancellation and withdrawal is effective when delivered, postmarked, or e-mailed. **See Tuition Refund Policy - General herein**

## LEAVE OF ABSENCE

The University realizes that an emergency may occur for a student that may only be solved by electing to interrupt class attendance for a time by requesting a Leave Of Absence (LOA).

The student must direct such a request to the Office of Student Services by writing a note clearly stating the reason for the request for leave of absence and stating the date of the request, the anticipated date of return, and signing the request. The LOA may be granted if sufficient reason is provided. When a student is granted a leave of absence, consequences may include:

1. Receiving an "F" grade for all courses that were not completed,
2. Repeating failed courses, and
3. Extending the graduation date.

# Attendance, Withdraw, Leave- of Absence Policies

## Grading Policies

### GENERAL POLICY ON GRADING

It is an integral part of the teaching responsibility of the faculty to provide careful evaluation, timely assignments, and appropriate grades for each enrolled student. In the absence of compelling reasons, such as a mistake, fraud, bad faith, or incompetence, the grade determined by the instructor of record is to be considered final. Final course grades must be submitted by the faculty to the Office of the Admissions & Records no later than noon of the second academic day after the end of the Final Examination period.

### TIME BETWEEN GRADING & EVALUATION

Submitted Examinations will be graded and returned to students within 5 business days.

Doctoral Thesis will be reviewed and returned to students with comments after 60 business days. This will allow faculty ample time to review, critique, and provide constructive feedback.

### STANDARDS FOR STUDENT ACHIEVEMENT

Students must achieve a 1.0, or "D", average to receive credit for a particular class. Students may retake any classes for which they have not achieved this passing grade. Standard tuition fees are applicable. An undergraduate student who falls below a cumulative grade point average of 2.0 is academically dismissed. Graduate students must maintain an overall G.P.A of 2.5 or student will be placed on academic probation. A graduate Student who falls below a cumulative grade point average of 2.5 is academically dismissed.

### GRADE REPORTS

At the end of each course, notification of the student's academic standing and report of grades achieved while in enrollment at the University are provided to each student. Grades are normally provided within two weeks following the completion of the course. If there are any unpaid charges or other penalties on record against a student, request for transcripts and class grades will be withheld unless arrangements to the contrary have been made in advance with the administration. Questions regarding grade reports, academic credit, or transcripts should be referred to the Office of the Admissions & Records.

### COMPLETION TIME

#### Minimum Completion Time

Students must be enrolled for a minimum of 2 academic terms to complete any degree program. Certificate programs have may be completed in 1 academic term.

#### Maximum Completion Time

Students are required to complete the program within 150% of the standard time of completion of the time of their admission.

Program	Standard (Yrs)		Maximum (Yrs)	
	Full-time	Part-time	Full-time	Part-time
Associate Degree	2.0	4.0	3.0	6.0
Bachelor Degree	2.0	4.0	3.0	6.0
Master Degree	1.75	3.5	2.75	5.5
Doctor Degree	2.0	4.0	3.0	6.0
Certificates - Achievement / Graduate	0.75	1.5	1.5	3.0
Certificates - ESL	N/a	N/a	N/a	N/a

## CHEATING AND PLAGIARISM

One or more of the following actions are available to the faculty member who suspects a Student has been cheating or plagiarizing. The choice of action taken by the faculty member is guided by the extent to which the faculty member considers the cheating or plagiarism reflects the Student's lack of scholarship or lack of academic performance in the course:

1. Review - no action
2. Oral reprimand with emphasis on advising to prevent further occurrence.
3. Requirement that the work be repeated.
4. Assignment of "Failure" for the specific work in question.
5. Assignment of "Failure" for the course as a result of No. 4 above.
6. Referral to the Dean of the University, as appropriate.

## STUDENT HEALTH AND SAFETY REGULATIONS

The University is not liable for injuries sustained by students in their activity as students, even though such injuries occur on school premises, in laboratory work, or in clinics. Students are advised to be certain that they are covered by personal health and accident insurance.

## GRIEVANCE PROCEDURE

Students have the right to address grievances to the Director. If the situation cannot be resolved promptly, the student shall submit a report of the policy violation to the President. Upon receipt of the report, the President shall promptly notify the student that an investigation will begin and furnish the Student with a copy of this policy. The Director shall immediately investigate the situation and shall have the power to question persons with pertinent information, examine any pertinent materials, and question the student. Within fifteen (15) school days, exclusive of weekends and holidays, of notice to the student, the Director shall determine whether a complaint shall be filed with the Executive Office. If a complaint is filed, the person against whom the complaint is filed shall receive written notice which shall include the initial report, the factual allegations, a list of witnesses and evidence, the time and place of the hearing, a statement that the accused has the right to be represented by counsel or representative of his/her choice, and an opportunity to review any information gathered by the Director.

If no complaint is filed with the University because the allegation is without merit, the conduct is de minimus, or the evidence is insufficient, the Director shall keep a record of the allegation, nonetheless. The student shall be informed accordingly. Unresolved complaints may be directed to the above address.

## Student Records Policies

---

### **AVAILABILITY OF STUDENT RECORDS**

Student records are maintained on-site for a minimum of five (5) years. Students have access to their own personal records during regular business hours upon reasonable notice, but access can only be had in the presence of a duty-authorized University representative. Transcripts are available for fifty (50) years.

### **DISCLOSURE OF STUDENT RECORDS**

With several exceptions provided by law, the University cannot release information concerning Students to prospective employers, government agencies, credit bureaus, etc., without the written consent of the Student. Students and alumni applying for jobs, credit, graduate school, etc., can expedite their applications by providing the University with written permission to release their records, specifying which records and to whom the release should be made. The Student's written consent is not required for the disclosure of grades, disciplinary action, or other information to parents of Students who are dependents for federal income tax dependency.

### **RIGHTS AND ACCESS BY OTHERS**

The law provides that right of access to Student records is available to authorized officials of State or Federal agencies when such access is necessary for audit or evaluation of educational programs supported by such agencies.

### **RIGHT TO WITHHOLD TRANSCRIPTS AND GRADES FOR NONPAYMENT OF TUITION**

The Office of the Admissions & Records may withhold a student's transcript or grades if the student is in default on a student tuition contract.

### **ADDRESS CHANGE**

It is important for us to have current mailing addresses for all students. If you change your address, you may notify us via email. If you do not have Internet access, you may notify the Office of the Admissions & Records by phone, mail, or fax.

### **NAME CHANGE (STUDENT OR GRADUATE)**

Students who need to change the names on their academic records may do so by contacting the Office of the Admissions & Records in writing and providing appropriate documentation. The Office of the Admissions & Records will then notify other IAU offices of the name change.

### **DECEASED STUDENTS (UPDATING RECORDS)**

Family members of students who have passed away during the course of their program and are entitled to a refund are required to submit a copy of the Death Certificate to the Office of the Admissions & Records. The Office will update the deceased student's file at that time.

The University is committed to doing everything possible to help eligible Students meet their financial needs. Major responsibility for securing the necessary financial resources rests with the student. In some cases, assistance can be expected and should be sought from the home church, support of family and friends, summer savings, and work-study funds. The University does not currently participate in state or federal financial assistance programs. Financial assistance may come in the form of Financing Plans, private scholarships, or the President's Scholarship.

**TUITION**

Tuition for a class must be paid before course work is sent begins, unless student opts for **Financing Plan** described in **Financial Information** section. The University reserves the right to collect any unpaid financial obligations by any means necessary for any education services and/or training provided. Students may use electronic funds transfer, personal or business checks, cashier's check or money order.

**ENROLLMENT AGREEMENT**

An enrollment agreement must be signed for the entire program enrolled. It is the policy of the University to collect all tuition and other fees from a Student before he or she starts the course. A tuition payment plan may be developed to assist students who need to pay on an installment plan. See **Financing Plan** policy herein.

**RELEASE OF INFORMATION**

The University will not provide documentation for any student or graduate who is delinquent in payment of tuition, fees or any other financial obligation incurred through the school. Nor will any such Student have final examinations graded or next course work sent. See *Student Records Policies herein*

**FINANCIAL SUSPENSION**

A student may be suspended from the University for failure to pay the tuition and fees as agreed to in the enrollment agreement.

and US Department of Education registered California Foreign Credential Evaluations (California FCE) also assesses St Clements degrees as equivalent to US degrees.

The Institute of Manufacturing/ The Institute of Management Specialists which are part of British Qualifications also recognize St Clements University Qualifications.

STC Technological University is member of St Clements University Group.

The Institution of Professional Engineers Myanmar, registered with NSW Government of Australia and Member of International Federation of Engineering Education Societies (IFEES) also accredits the degrees issued by St Clements University and STC Technological University.

IQY Technical College registered with AISC of Australian Government is Authorized Training Centre of Singapore Institute of Engineering Technologists and The Institution of Professional Engineers Myanmar.

There is no Private University and Tertiary Colleges Registration law in Myanmar.

All the organizations which have named themselves as Universities are actually operating with the business licenses and act as Representative / Agents of Foreign Universities.

IQY Technical College is legally registered in Australia although we do not operate as RTO in Australia, we possess the legal right to award our own diplomas.

IQY Professional Diplomas are designed at Bachelors degree level and IQY Master Diplomas are designed at Masters degree levels.

To issue the degrees, we co-operate with St Clements University/ STC Technological University.

#### Accreditation and Recognition

If you pay\$100,000 and you get Australian degree, you got the accredited qualification.

But if you want to get Australian Permanent Resident Visa, you must sit IELTS

Without PR, no legal right to work .

What is meaning of Accredited Qualification

Washington Accord of IEA (International Engineering Alliances) is designed for International Mobility of Engineers

Now Covid 19 stops all international travels and borders. What will be real usage of Washington Accord?

Even if Covid 19 vaccine has been developed, the recovery of the industries and businesses of all countries will be long term. In this case, all countries will focus on giving the jobs to their own citizens and residents and when the real benefit of accredited qualifications under Washington Accord will be acquired?

It is important for you to decide your near future rather than too much concerning Accreditation/ International Recognition etc.

Because the employers will pay you for your real skills rather than your papers

**Covid Era Teaching and Learning System**

Online/ Distance Education was not previously accepted by Ministries of Education of the countries.

Now Covid 19 has made the online education for most international universities.

Will you attend online ? or do not learn and do not get the qualification at all, what will you choose?

In Myanmar, with the permission by the Ward Authorities, the private schools can now be re-opened. So long as no covid infection, it may be OK. But will you risk with the legal action or will the ward authorities risk with legal action if something wrong and covid infection occurs ? The situation for private colleges will be totally difference from Government schools.

In the Covid Era Teaching and Learning system, the main thing to discriminate the real or fake education no longer lies with the point that online or physical attendance, it does not line on the point that the degrees are offered at the university with large campuses or from an office .

It lies with the amount of the resources, curriculums, learning management system and quality of the resources due to Covid Era Teaching and Learning System.

The another thing is Accreditation?

The Institution of Engineering and Technology (IET) which is former The Institution of Electrical Engineers (IEE) was founded as Incorporated Association in UK in 1871.

It is not university or government service. It is an Incorporated Professional Association.

But IET can accredits the engineering degrees

In analysis--- Professional Association with Government Incorporation can assess and recognize the degrees.

So the accreditation really means that Incorporating an professional association and designing the accreditation system, it can be working. The bigger the organization, the more legitimate in accreditation but there is no law for any employer to universally accept such accreditation. The employer has right to choose the candidate who will best fit with their jobs.

It is important for you to gain the real skills to fit with your future jobs.

## PART 1 ACADEMIC STUDY AND ASSESSMENT

IQY Technical College designed the online learning portal which includes Videos/ Study Notes/ Textbooks and assignments.

The students will need to submit monthly test/ assignments to complete the subject.

There are 24 units to be completed over 24 months

The learning support sites are

Professional Diploma in Electrical Engineering

## Part 2 Background of IQY Technical College

IQY Technical College is based in Myanmar.

The website/ address are in the following link

[www.iqytechnicalcollege.com](http://www.iqytechnicalcollege.com)

IQY Technical College is Authorized Training Centre of Singapore Institute of Engineering Technologists

The documents related to connection between IQY Technical College and the features of Singapore Institute of Engineering Technologists can be found in the following link

<http://www.iqytechnicalcollege.com/sietatc.htm>

The Singapore Institute of Engineering Technologists (SIET) being the Professional Body for Engineering Technologists is a multi-disciplined learned establishment registered in Singapore since 1980 under the Societies Act [Singapore Government Gazette Notification No: 3310].

[www.iqytechnicalcollege.com/IQYSIETRecognition.pdf](http://www.iqytechnicalcollege.com/IQYSIETRecognition.pdf)

Although IQY Technical College is based in Myanmar , Myanmar does not have the law to register Tertiary Education Colleges and Universities.

The private tertiary education colleges and universities are working with overseas Professional Associations or Universities to offer the diplomas and degrees.

IQY Technical College works with Singapore Institute of Engineering Technologists since 2014.

Just in 2020, IQY Technical College makes Business Registration with Australian Investment od Security Commission

### Evidences

<http://www.iqytechnicalcollege.com/IQY%20ASIC%20Certificate%20Page%201.pdf>

IQY Professional Diploma in Engineering is designed as equivalent to 4 Years BE degree. Due to ASEAN Education and Recognition framework under the supervision of Singapore Institute of Engineering Technologists, IQY Technical College does not confer BE degree instead, it confers Professional Diploma which is equivalent to BE degree.

<http://www.highlightcomputer.com/AER.pdf>

In the above Document, SIET-Singapore Institute of Engineering Technologists can nominate ASEAN Engineering Registration.

AS IQY Technical College courses are accredited by Singapore Institute of Engineering Technologists,

They are accredited.

According to above facts

IQY Technical College is

- Legally registered
- Sound Academic
- Legally offering tertiary education course
- International Accreditation and Recognition
- Managed and taught by suitably qualified academics

#### Part 4 Linking between IQY Technical College & STC Technological University, Former St Clements Technological University

Actually, St Clements Technological University and IQY Technical College are academically related.

- IQY Technical College provide the teaching, curriculum and assessment. The curriculum materials are accredited by Singapore Institute of Engineering Technologists in ASEAN Engineering Education Framework.
- IQY Technical College teaches BE level studies but it does not confer BE degree
- St Clements Technological University confers BE degree to all graduates of IQY Technical College who complete 4 Years Professional Diploma in Engineering. All are conferred as Scholarship. Only Administrative fees (Small amount was charged)

Background of STC Technological University

<https://www.stclementstu.com/>

From the website, the extractions are as follows

STC Technological University is a technological university which awards Master and Doctoral degrees in Applied Science, Applied Arts, Engineering and Education as well as providing the scholarships to the needy students of the developing countries.

**It is a non profit international organization.**

**It only awards the degrees to the experienced researchers and the students who are awarded the scholarships. It does not offer any degree for commercial purpose.**

STC Technological University academic council composes of academics from British West Indies & British Commonwealth Countries who nominate the candidates of research background to be awarded Masters & Doctoral degrees based on their practical research experiences & published works.

**STC Technological University academic council also awards the scholarship Bachelor degrees in Engineering, Applied Science , Information Technology , Business Administration and Business Management through the affiliated colleges and schools led by International Academic Councillors.**

**For scholarship application & degree verification--Contact - [stclementstu@gmail.com](mailto:stclementstu@gmail.com)**

**Or**

Apply through the affiliated schools & colleges

Approval of the scholarship will depend on consultation of the International Academic Councillor responsible for a particular country & e-mail interview with the applicant.

Only the successful candidates will be contacted by e-mail. The university has the right to make no contact to unsuccessful applicants.

**International Councillors , Affiliated Organizations & awarded doctorate degree holders**

**Please contact [stclementstu@gmail.com](mailto:stclementstu@gmail.com)**

STC University is an International Non Government Organisation established to provide the education needs of poor students in developing countries and it has the base in British West Indies Islands but it does not register with any government and does not operate as a profit organisation.

It assists the students by providing the education through the Government Registered Schools, Colleges worldwide but it does not issue any degree by charging any cost.

For this reason, it is not our business to take the concern on accreditation, diploma mills, government recognition, any issues raised by any government accreditation authorities , any government education departments, any governmental education laws and accreditation as well as any of degree mills issues.

STC Technological University wants the students to read our website and contact us only if they have satisfied with our information as neither STC Technological University nor our partners and affiliated educational institutions will answer the questions related to above issues because we are operating as EDUCATION REVOLUTIONISTS to equalise the education among riches and poors, First World and Third World.

We confer appropriate awards to academics who join our Worldwide Education Revolution by contributing appropriate academic research, operation , courses, training and resource developments.

#### ADDITIONAL INFORMATION

STC Technological University means St Kitts, Turk and Caicos Islands Technological University, operating as an International Educational Non Government Organisation since 2011 to assist the education needs especially in engineering which is essential to develop the communities of the students in West Indies, Caribbean , Africa, India, Pakistan, Myanmar and other developing countries.

As the main educational revolutionist activists founding members are engineering teachers from St Kitts, Turk and Caicos Islands who migrated there several years ago, we choose the name STC (St Kitts, Turk and Caicos).

Current CEO is Dr Peter Prasad originally from India.

Now STC Technological University has organised several colleges and schools which are either government registered or recognised by their regional professional organisations,

Based on the original awards, we provides the testimony in academic terms in accordance with MOUs.

Our network of affiliated colleges and schools include those in British West Indies, Africa, Asia, Middle East ,South Pacific and Latin America where there have been the most inequalities in education..

S TC Technological University Engineering Faculty is closely working with IQY Technical College Myanmar to deliver the engineering, engineering management and ICT engineering degree courses accredited by The Institution of Professional Engineers, Myanmar.

As we are educational revolutionist activists , if the instruments of the institutions which have done the most inequalities in education use the international media as the tool to undermine our efforts, we will also follow the same ways as utilized by them with the helps of our member activists worldwide.

From the above facts

1. STC University is an International Non Government Organisation established to provide the education needs of poor students in developing countries and it has the base in British West Indies Islands but it does not register with any government and does not operate as a profit organisation.-----IT IS EDUCATION NGO
2. It works with IQY Technical College

## Accreditation

How the accreditation system works.

1. Accreditation is usually provided by Independent Professional Associations such as UK Engineering Council, Engineers Australia.
2. The Associations which provide the accreditation must be Government Registered Incorporated Associations or well known International Professional Associations.

According to the information by The Society of Professional Engineers International (Former Society of Professional Engineers UK), STC Technological University is accredited by The Society of Professional Engineers International.

At the bottom of <http://www.thespeukinternational.org/>

### **STC Technological University (Academic and Educational Branch)**

Furthermore, STC Technological University is accredited by The Institution of Professional Engineers Myanmar NSW Australia Chapter

<http://www.ipemyanmar.org/ipemaccreditation.htm>

<http://www.highlightcomputer.com/ipemaccreditedcolleges.htm>

AND Accreditation Documents

<http://www.highlightcomputer.com/ipemaccreditation.htm>

From the above facts

- To my knowledge, as we are working as International Education System, we focus on real knowledge and skills of the candidate.
- Although Governmental Registration is made on an educational Institution or not, if the institution is not degree mills and its objectives are fair to the students, IQY Technical College has the right to co-operate with it.
- STC Technological University is International NGO
- It was accredited by The Society of Professional Engineers International.
- The Institution of Professional Engineers Myanmar also accredited it.
- STC Technological University has already launched its website [www.stclementstu.com](http://www.stclementstu.com) since the time of 2013 when IQY Technical College co-operate with it.

- It can be easily searchable by Google Search
- Although there will be arguments that the degree can only be awarded by the Institutions formally registered with the Government. For international issues, not all qualifications are formally accepted by all countries of the World.
- It will be up to the employer to recognize or accept it
- But in legal issue, if the candidate genuinely pursues the studies and the award is based on actual effort of the candidate and assessment, it is not illegal practice.

Level 3

တက္ကသိုလ်၊ ကောလိပ်နောက်ဆုံး ညှစ်အဆင့် Professional Diploma in Engineering (Specialist Discipline) such as Advanced Diploma Civil/Electrical/Mechanical Engineering/ IT/ Management./ BE/BMgt/BSc(IT)

အဲဒီမှာအခြေခံအဆင့်သိသင့်တာမသိခဲ့ဘဲဘွဲ့ လိုချင်ဇောနဲ့ Professional Diploma in Engineering (Specialist Discipline)ကိုဝင်တက်ရင်သင်တဲ့စာတွေနားလည်ဘို့ ခက်ခဲမှာဖြစ်လို့ သင့်တော်တဲ့အဆင့် ကစတင်ဘို့ လိုပါတယ်။

နောက်တခုကစာမေးပွဲအောင်တာကျတာ IQY မှာမရှိပါဘူး။ Memory ကို Test မဟုတ်ပါဘူး။ သိသင့်တတ်သင့်တဲ့စာကိုပြည့်ဝစွာသင်ယူပြီးလုပ်ရမဲ့ Assignment/ Exercise တွေပြည့်ဝစွာလုပ်ပြီးမှ Qualification ကိုပေးမှာဖြစ်ပါတယ်။

Assignment/ Exercise လုပ်တာကိုသင်တဲ့ဆရာကမကျေနပ်သေးရင်လိုတာထောက်ပြပြီးပြန်လုပ်ခိုင်းမှာ ဖြစ်ပါတယ်။

IQY Technical College courses are arranged at three levels

#### Level 1

It is tertiary bridging level combining Year 9 to 12 lessons and technical/ vocational subjects. Example- Advanced Diploma in General Engineering & Drafting

#### Level 2

It is first two years level of College/ University Courses. The courses are Advanced Diploma in Engineering (Specialist Discipline) such as Advanced Diploma Civil/Electrical/Mechanical Engineering/ IT/ Management.

#### Level 3

It is final two years level Professional Diploma in Engineering (Specialist Discipline) such as Advanced Diploma Civil/Electrical/Mechanical Engineering/ IT/ Management./ BE/BMgt/BSc(IT)

If the students who are ambitious in getting the degree but do not possess the necessary skills and knowledge join the Professional Diploma/ Degree class, they will find it difficult to understand the lessons. It is important for them to join at appropriate level.

IQY does not have the system of Passing or Failing the examinations. We do not test the memory. The qualification will only be awarded to the students who have learnt all necessary studies and have fully done the necessary exercises and assignments.

If the teacher does not satisfy with the student's work, the weaknesses will be pointed out and the student will be asked to redo the work.

THS/ITC/ Year 10 မှစ၍ သူများသည် အောက်ပါ အစီအစဉ်အတိုင်း တက်ရမည်။

**Year 1**

Diploma in General Engineering and Certificate in Tertiary Preparation (First 6 months)

Diploma in Electrical/Mechanical/Civil Engineering (Myanmar Version) (Second 6 months)

Associate Degree in Work Studies-Engineering

**Year 2**

Advanced Diploma in Electrical/Mechanical/Civil Engineering Part 1+Associate Degree of Work Studies in Engineering

BTech/BE ဆက်မတက်နိုင်ပါက Bachelor of Work Studies-Engineering ကို Year 3 တွင် အခမဲ့ တက်ကာ ဘွဲ့ရယူနိုင်မည်။

အလုပ်အတွေ့အကြုံ တစ်နှစ်ရှိပါက Bachelor of Work Studies-Engineering ကို Bachelor of Science-Engineering သို့ CV (Curriculum Vitae) တင်ပြပြီး အဆင့်မြှင့်နိုင်သည်။

## Original Information in English

All mainstream universities (and, note, I emphasise the word 'university' for this scenario, and am not interested in Colleges etc) in the world have some form of legal authority to grant degrees. This authority ranges from:

- 1) Royal Charter
- 2) Act of Parliament
- 3) Accreditation (National & RA)
- 4) Ministry of [Education](#) Accreditation
- 5) State Licensing/ Authority
- 6) Any other international forms I have missed, I apologise but please add in.

All of the above involves some form of review/ assessment by an external body. This external body and process is designed to assess the capacity of the applicant and ensure that it has the minimum requirements in a range of areas ranging from physical to human resources in order to confer the range of degrees it is seeking to deliver.

If the entity meets the requisite standards, set at that particular point in time, then it is conferred authority, whether it be perpetual autonomy, or a set period of time, to confer degrees. At the same time, the entity can also be conferred the authority to use the word 'University', which is the approach in the Commonwealth, Europe etc but not in the USA, where the word is not controlled in legislation. This is called, in a broad sense, accreditation and not quality assurance. Quality assurance is the ongoing maintenance of standards, which the entity promises to comply with, and even improving and refining these standards, as it operates as a higher education institution.

It is now suggested that there is another form of legal authority to grant degrees. This allegedly comes in the form of Company Incorporation whereby an organisation incorporates itself as a legal entity using the word 'university' in its business name. The authority to grant degrees is derived from the company's articles of incorporation, spelling out its own empowerment to confer degrees. The Directors of the company generally draft these articles. This form of incorporation generally occurs in jurisdictions where the word 'university' is not controlled under the Business Names Act, or similar legislation. If it were controlled under legislation, then the above 'accreditation' steps would have to be followed.

So, we now have organisations referring to themselves as 'self-validating' or 'autonomous institutions', essentially claiming the same level of legal authority to grant degrees as those that have gone through the above mainstream processes. Examples of institutions using this legal structure are Knightsbridge University, Warnborough University, Earlscroft University etc. etc.

I would be interested in the members view as to this legal position re-approval to grant degrees. Is it acceptable for a university to incorporate itself, empower itself to confer degrees, and undergo no external assessment/benchmarking etc? I emphasise again - I am not interested in the quality assurance frameworks - I am interested in the legal authority to grant degrees.

ယခုအလုပ်များစွာကိုကြော်ငြာနေကြပြီ။ ထိုအလုပ်အုပ်စုများတွင်ကျွန်တော်တို့သည်ခွဲခြားခြင်းမပြုပါ။  
အင်ဂျင်နီယာဘွဲ့ဒီဂရီအားလုံးသည်ခွဲခြားမှုမရှိဘဲအလုပ်လျှောက်ထားနိုင်သည်။  
ဒါဟာကျွန်တော်တို့ရဲ့အခြေအနေနှင့်လုပ်နိုင်တာဖြစ်သည်။

သို့သော်အင်ဂျင်နီယာအားလုံး၏တာဝန်မှာ အစိုးရအင်ဂျင်နီယာ ကိစ္စရပ်များ တွင်ပိုမို လွတ်လပ် ခွင့်ရသည့်ကြိုးပမ်းရန်ဖြစ်သည်။
