

UEE30820 RPL -To follow all steps, use RPL Kit_UEE30820 Cert III Electrotechnology.pdf

UEE62122+UEE62220+UET60222 RPL-Step 1+Step 2 Reference +Use Step 3 Online Tests/Assignments as necessary.

Some work experience and practical assessment in RPL Kit_UEE30820 Cert III Electrotechnology.pdf can be utilized as follows, but for Advanced Diploma level, more customized advanced assessment questions referred from assessment question pool of Advanced Diploma courses will be used.

UEE30820 Units	Relevant Category of Advanced Diploma UEE62122+UEE62220+UET60222 Units
UEECD0044+UEECD0046+UEEEL0020	Electrical Circuit related units of Advanced Diploma Courses
UEEEL0021	Electromagnetism related units of Advanced Diploma Courses
UEEEL0021+UEEEL0019+UEEEL0024+UEEEL0025 units	Electrical Machines (AC,DC, Dynamic, Static) units of Advanced Diploma Courses
UEEEL0003	Control/Protection units of Advanced Diploma Courses
UEEEL0005+UEEIC0013	Machine and Process control system units of Advanced Diploma Courses
UEEEL0047	Energy Supply system units of Advanced Diploma Courses
UEERE0001	Renewable Energy units of Advanced Diploma Courses
UEEEL0008+UEEEL0009+UEEEL0010+UEEEL0012 +UEEEL0014+UEEEL0018+UEEEL0023+UEEEL0039	Electrical Supply+Equipment+ Wiring+ Regulations+ Installation +Safety Testing units of Advanced Diploma Courses
UEEDV0005	Telecommunication units of Advanced Diploma Courses
UEEAS0007	Power+Control Panel+System units of Advanced Diploma Courses
UEECS0033	Computer units of Advanced Diploma Courses
UEECD0007+UEECD0016+ UETDRRF004	OHS units of Advanced Diploma Courses

Assessing the Engineering Knowledge+Skills+Competency+Previous studies and experience is

to be based on Engineers Australia-Engineering Associate, Engineering Technologist and Professional Engineer Competency Guidelines

NAT11297-NO RPL to be granted as it is a licensing short course.

Engineers Australia Engineering Associate

Practical

We can classify the practical into two categories.

1/ Practical requiring physical skills

They will be workshop, electrical wiring, installation , testing, measurement , use of equipment

The students will need to work with real equipment, tools and materials.

The units will be

UEECD0019 Fabrication

UEECD0020 Fix and Secure

UEEEL0023 Cable Termination

UEEEL0012 Wiring & Installation

UEEEL0014 Fault Finding

UEEEL0003 Protection

UEEEL0005 Motor Control

UEEEL0047 Alternative Supply

UEEEL0039 Testing Verification Capstone

Some test/ operation of

- UEEEL0021 Magnetism
- UEECD0020 AC
- UEECD0044+46 DC
- UEEEL0019 DC Machine
- UEEEL0024 AC Rotating Machine
- UEEEL0025 Transformer

2/Theory knowledge AND Practical that explain the theoretical concepts with simulations

The nature of practical can be simulation, data collection, circuit connection, studying the characteristics.

Simulation , use of computer program, computer simulated practical can be done.

The units are.
