Join us at one or more of our events and earn **1.5 CPD hours**.

Hi U,

Register for one or more of our upcoming 'Industry Partners Series' events. These events let you earn CPD hours while hearing the latest industry insights from subject matter experts.

**In-person Events**

## **NEXON'S MICROSOFT BUSINESS APPLICATIONS SUMMIT 2025**

5 June 2025 | 8.30 am – 6.00 pm AEST

We're thrilled to invite you to the **Microsoft Business Applications Summit 2025**. This event is designed to help you unlock more from your Microsoft investment. Join us and connect with industry visionaries and technology pioneers as we explore innovative ways to challenge conventional thinking. You'll be redirected to an external site to register.

## Webinars

### ENGINEERING THE FUTURE IN AI WORLD

11 June 2025  
2.00–3.00 pm AEST

Join us to hear from industry experts on how artificial intelligence is transforming the engineering profession – what that means for your career, risk exposure and financial resilience. This webinar will explore the implications of AI on the engineering workforce and highlight how professionals can build resilience in the face of rapid change.

### SCALABLE SECURE OT IT STRATEGIES FOR INDUSTRY

4 June 2025  
1.00–2.30 pm AEST

**Final Reminder!** This webinar brings industry leaders together to explore how integrated OT/IT systems improve visibility, efficiency, and data-driven decisions across sectors like manufacturing, utilities, mining, and energy.

### POWERING COLLABORATION ENGINEERING TEAMS WITH BLUEBEAM

10 June 2025  
12.00–1.30 pm AEST

**Final Reminder!** In today's fast-paced construction environment, engineers must deliver quality outcomes faster and more accurately. Join us to see how Bluebeam Revu helps teams collaborate confidently and build smarter.

## **HARNESSING BIOMETHANE FOR AUSTRALIA'S ENERGY TRANSITION**

17 June 2025  
1.00–2.30 pm AEST

Discover how biomethane is shaping Australia's energy future. Join industry experts as they explore the renewable energy landscape and unpack Zinfra's role in constructing the nation's first biomethane injection plant at Malabar—pioneering innovation and sustainability in action.

## **GLASGRID REINFORCEMENT IN ROAD PAVEMENTS**

18 June 2025  
1.00–2.30 pm AEST

For more than 40 years, GlasGrid reinforcement has been a trusted solution for reducing reflective cracking in asphalt layers. This webinar provides an in-depth look at GlasGrid, highlighting its material characteristics and how they influence key performance factors such as fatigue resistance and interfacial bond strength.

## **THE FUTURE OF LARGE FORMAT RETAINING WALL BLOCK SYSTEMS**

18 June 2025  
5.00–6.30 pm AEST

Join us to hear from industry experts on the future of large format retaining wall systems. In this webinar we will identify how to design retaining walls with large format segmental blocks to maximise the potential benefits and achieve better real-world outcomes using project examples.

## **AN INTERNATIONAL PERSPECTIVE OF PLASTIC STORMWATER CORRUGATED PIPES**

19 June 2025  
12.00–1.30 pm AEST

Concrete pipes have traditionally been the go-to solution for

underground drainage—but is that still the case today? Globally, engineers are shifting toward flexible plastic alternatives that offer quicker installations, reduced emissions, and improved site safety. Join us to hear from industry experts as we explore the global uptake of plastic pipes.

---

## **SOFTWARE AND GEN-AI RESHAPING THE ENGINEERING LANDSCAPE**

19 June 2025  
3.00–4.30 pm AEST

Explore how software and Gen-AI are transforming Australia's critical infrastructure. Join global and local engineering leaders for this webinar as they share practical strategies for leveraging AI, automation, and intelligent system design to deliver faster, safer, and more sustainable outcomes.

[REGISTER NOW](#)

---

## **OPTIMISING TUNNELLING WITH ADVANCED GEOTECH MODELLING**

24 June 2025  
12.00–1.30 pm AEST

Unlock smarter solutions to complex tunnelling challenges with advanced geotechnical modelling. Discover how GTS NX is transforming tunnel design and analysis—enhancing accuracy, efficiency, and outcomes across Australia's evolving infrastructure landscape.

In partnership with

[REGISTER NOW](#)

---

## **MODULAR BLOCK RETAINING WALL, DESIGN AND BUILD**

25 June 2025  
2.00–3.30 pm AEST

Large Scale Precast Modular Block (PMB) retaining walls are reshaping the construction landscape with their speed, cost-efficiency, and design flexibility. Join us for an in-depth session exploring the evolution of retaining wall systems—from traditional methods to today's advanced

PMB solutions.

## THINKING LEAN CONSTRUCTION

1 July 2025

1.00–2.30 pm AEST

Join this webinar to discover how lean thinking can streamline project delivery—from concept to handover—through the case study of a 700-student high school completed in just 16 months. You will also learn how Lean Construction adds value across teams, digital engineering, and integrated delivery methods.

## EFFICIENT DESIGN FOR BETTER TIMBER BUILDINGS

2 July 2025

1.00–2.00 pm AEST

Timber is a unique and sustainable material for many buildings, but it is sometimes viewed as an expensive option compared to more conventional alternatives. Join us to hear from industry experts on how to leverage design for manufacture and assembly (DFMA) thinking in your next commercial timber project to deliver more cost-effective and better timber buildings.

## PREPARE YOUR HEALTHCARE BUILDING FOR NEXT-GEN TECH

3 July 2025

3.00–4.30 pm AEST

Hospitals demand uninterrupted power to ensure patient safety and operational efficiency. Join ABB experts and industry leaders as they explore how advanced energy management and electrical infrastructure solutions are keeping hospitals running 24/7—safely, sustainably, and without compromise.
