

## SAMPLE INTRODUCTION FOR QUESTIONNAIRE

### A Questionnaire on Attitudes on Whether Australia Should Become a Republic

Name (contact number)

Name (contact number)

Name (contact number)

We are three students at the University of Technology, Sydney, and we are carrying out a small survey research project which is required as a part of our studies. Your help in filling out this small questionnaire would be greatly appreciated, and should only take a few minutes of your time.

Your responses to the questionnaire will be confidential (or anonymous – whichever applies) and only aggregate results will be reported. If you would rather not reply to any of the questions, feel free to omit them.

When you have filled out the questionnaire, please put it in the envelope provided and place it in the box located... (or whatever instructions are appropriate).

If you have any questions or concerns regarding this research project please contact us on the phone numbers given above. Alternatively, you can contact our Supervisor for this project, Dr Gisselle Gallego , at the University on 9514-4725 (fax 9514-4730).

(Then begin the actual questionnaire, usually starting with general and specific instructions. Can start a new page if the questionnaire will fit on one page.)
