General BKH is simply leader with a normal attitude and loves. No matter what he is happily and bravely love his job as army.

He serve the Karen National liberation army more than 30 years and now 2019 to 2010

The Karen struggle is more than 70th years and we kinda still under the myanmar military govt control and we still don't have any chance in Karen state eventho the myanmar military keep fighting so earlier so KNU leader and other ethnic groups agreed to sign cease fire with the Tamataw Myanmar military govt since 2015 but we see no peace yet in Karen state.

However General Baw Kyaw Heh stand bravely as a Strong leader so there is no doubt and anything. And we people will stand strong as well.

Freedom is for everyone who fight for the right,
we fight tge justice of peace we fight for our human right in Burma, we fight our right equal in Burma and we fight for our independence "

As my personally thought -

We also want All world international leader support us by giving pressure and sanction more and more on Myanmar military govt for thier genocide and violonce ,killing innocent human in Burma,

We want more world international to cutting tied a companies with myanmar military govt and to stop Myanmar military to killing and violonce and genocide innocent people in Myanmar. Every one need a right and happy life in peace we don't support violonce and war in Burma. And we hope the world international WI bring those Chief military leader to the ICC.
